## PATIENT SUMMARY

## Assessors Comments :

Patient says he broke his left wrist playing soccer past January and broke his wrist. He thought was sprained so he did not get examined. It continued to give him problems. Unfortunately he continued to have problems with his wrist and so he discussed with his pediatrician. She recommended he see an orthopedist. He had in fact sustained a fractured and has delayed healing with non-union. VCU health will see the ORTHO surgeon to discuss treatment options which may include surgery.

We discussed covid 19 vaccine and the arrival of his child, we discussed where he may obtain a covid 19 injection.

We discussed trade schools and plans for the future.
